Website Care & Maintenance Plans

Your website isn't a one-time project — it's a live extension of your business. Regular updates and maintenance keep it secure, fast, and performing at its best.

I offer tailored care plans to give you peace of mind, proactive protection, and professional support every month.

Starter Care – \$65/month

For small sites that need consistent technical upkeep. **Includes:**

- WordPress, theme, and plugin updates
- Monthly backup and uptime monitoring
- Basic security scan
- Troubleshooting of minor technical issues

Perfect for brochure or information-based sites that need stability and protection without ongoing edits.

Professional Care – \$165/month

For growing businesses that want hands-off peace of mind and light content support.

Includes everything in Starter Care, plus:

- Up to 60 minutes of content or visual edits per month
- Quarterly page refresh (homepage, banners, or key events updated)
- Monthly maintenance report outlining updates and improvements
- Priority email support

Ideal for small businesses or consultants who update content periodically and value professional oversight.

Why it matters

Every WordPress site depends on dozens of moving parts. When updates clash or code conflicts (like plugin errors), your site's performance and appearance can suffer. These plans ensure:

- Your site stays protected and up to date
- Your visitors experience smooth, secure browsing
- You spend less time troubleshooting and more time leading your business

Ready for worry-free website management?
